

Magic Jack

Hello ladies;

Here is the information as it pertains to **Magic Jack**: Hope this helps.

You can purchase this at:

Best Buy \$39.99 plus tax

Model: A921 | Sku: 9123539

or

Radio Shack \$39.99 plus tax

Model: A921 | Catalog #: 43-302

Call anywhere in the U.S., Canada, Puerto Rico or the U.S. Virgin Islands (U.S. VI) for no additional charges. Receive calls from anywhere. Each magic Jack kit includes a phone number. Use your regular home phone or a headset/mic combo. Switch between a handset and your headset/mic combo.

Broadband, high-speed internet, cable internet, DSL, WiFi or WiMax required. Magic Jack does not work over dial-up or satellite internet.

Each magic Jack includes your very own unique phone number

Prepaid minutes available for calling countries besides the U.S., Puerto Rico, U.S. VI & Canada

First year of service included (\$19.95/year thereafter)

You'll also need

Windows® XP; Windows Vista®, MacOS®

Available USB port

High-speed internet connection (128 kb/s required by magic Jack)

Then if you want to have phones all over the house, you would simply purchase a cordless phone with multiple handsets, which range from \$40 to \$150.

I personally think that this is a great investment.
